Experience

Software Developer Intern May 2023 – November 2023
BHS Intralogistics *Germany*

- Developed custom plugins for the Camunda Modeler software, enhancing its functionality and usability.
- Utilized JavaScript, React, Angular, HTML, CSS, and Node.js to create innovative solutions that streamlined processes within the Camunda Modeler
- Collaborated in an agile sprint environment, consistently delivering high-quality code and contributing to project success utilizing JIRA.

Web Developer April. 2020 – Dec 2021
DETASAD *Saudi Arabia*

- Developed server-side applications using Node.js, implementing robust and efficient backend functionalities
- Developed web applications in HTML, CSS, and JavaScript for front-end development, ensuring visually appealing and responsive user interfaces.
- Contributed to API development, enhancing data communication between the front-end and backend, ensuring seamless interactions

Projects

E-commerce Web App | *React, Express.Js, MongoDB, Node.Js*

- Developed a MERN stack E-Commerce web application using React, Express.Js, MongoDB and Node.Js
- Created a dynamic and responsive user interface, establish a robust back-end API, and manage data efficiently in a NoSQL database.
- Created user profiles, categories, product creation, and Admin and user dashboard

Portfolio | *HTML, CSS, Javascript, Git*

- Designed and implemented a visually appealing and responsive portfolio website using HTML and CSS, showcasing proficiency in front-end web development.
- Incorporated JavaScript to enhance interactivity and user engagement on the portfolio website, demonstrating the ability to integrate dynamic elements for a more interactive user experience.

Controlling Raspberry Pi from Web App | *Python, Javascript, Flask, Django*

- Developed web app using Flask, using axios to initiate requests from client to server
- Using OpenCV library to detect color and shaped from the Raspberry Pi camera and stream the view to the web app.
- Connected Step motor and ultrasonic sensor to the Raspberry Pi, and programmed it to rotate motor certain degrees and ultrasonic sensor to measure the distance of color shaped object,

Education

Technical University Ilmenau, Germany
Master of Science in Media Technology

NWFP University of Engineering and Technology Peshawar, Pakistan
Master of Science in Telecommunication Engineering

NWFP University of Engineering and Technology Peshawar, Pakistan
Bachelor of Science in Electrical Engineering

Technical Skills

Languages: JavaScript, Python, Dart, HTML/CSS
Frameworks: React, Node.js, Flask, WordPress, Django, RestAPI, Express.Js
Developer Tools: Git, Docker, VS Code, Visual Studio, Postman, PyCharm
Libraries: OpenCV, NumPy, Matplotlib
